---

Most educators have heard of the program; many schools have bought it system wide, but haven't trained the staff on how to use it! Here is your chance to learn not only the "ins and outs" of this visually-based planning and brainstorming tool such as linking images to web sites and other documents, but also to learn how it can be used across the curriculum to directly address curriculum standards and the Frameworks, and to impact student achievement. Specific content examples will be used and time will be allotted for participants to create models and lesson ideas to use in their own classroom.

**About the Presenter:**

**Evelyn J. Woldman** has a Masters degree in Social Studies Education from Boston University and a C.A.G.S. in Teaching in Education with Technology from Lesley University. She is a MESPA staff member and is also on the adjunct faculty at Lesley University, Simmons College and Northeastern University.
